

# Multilingual Providers, In and Around the Valley

*Accessibility means many different things to many different people, but one way NVHD would like to contribute to this shared goal is to ensure that all our multilingual Valley residents are able to access healthcare from a provider with whom they share a native language, should they wish to. Going to the doctor can be difficult enough, without factoring in potential language barriers; below, we've compiled some samples of providers in and in reasonable proximity to the Valley.*

## Albanian
